1.03.18 Restricted Assessment – Company Takeover

90. That where this Valuation or the Valuation Services are provided for the purposes of or in relation to a takeover or proposed takeover of a company or firm, unless otherwise stated, no inspection of any property referred to has taken place other than an inspection of the exterior of such property from the nearest public road based on Your instructions. The resultant figure is an indicative estimate only and may vary significantly upon internal inspection for any one of a number of reasons. The Assessment/ Indicative Estimate is not and should not be construed to be a full and formal market Valuation. It should not be relied upon as a formal Valuation for any dealings with the property including sale, purchase, mortgage or loan fund advance. We recommend that a full and detailed Valuation be undertaken including an internal inspection prior to any dealings with the property. We will not assume any negligence or liability for the Client's reliance on the Restricted Assessment/ Indicative Estimate herein.

1.03.19 Restricted Access Assessment – Residential

91. That this Restricted Access Assessment has been prepared in accordance with the Australian Valuation and Finance Industry Residential Standing Instructions for Property Pro, Progress Inspections, and Restricted Assessment Reports Version 2.1 dated 1 September 2018. It has been conducted by way of external inspection from the street only, as specifically instructed by the Client. The resultant figure is an indicative estimate only and may vary significantly upon internal inspection for any one of a number of reasons. The Assessment/ Indicative Estimate is not and should not be construed to be a full and formal market Valuation. It should not be relied upon as a formal Valuation for any dealings with the property including sale, purchase, mortgage or loan fund advance. We recommend that a full and detailed Valuation be undertaken including an internal inspection prior to any dealings with the property. We will not assume any negligence or liability for the Client's reliance on the Restricted Assessment/ Indicative Estimate herein.

1.03.20 Discounted Cash Flow

92. That where We have forecast rental and outgoings cash flows, future rental rates, expense costs, development costs, end project sale values and property values will be determined by market forces. The figures, forecasts and projections used in Our analysis and Valuation are not a representation of a known or guaranteed future condition. Should the assumptions that We have made as to timing, cash inflows and cash outflows prove to be incorrect We reserve the right to reconsider Our findings herein.

1.03.21 Market Transaction Evidence

93. That the sales or leasing evidence which We have utilised has been obtained from reliable sources including RP Data (Sales data produced from the NSW Land Registry Services and Valuer General's Department), and the Commercial Property Monitor. We have also, where possible, had discussions with Estate Agents to undertake a process of verification of the data. Should it be revealed that any of the sales or leasing information stated herein, upon which We have relied, is incorrect or misleading, We reserve the right to reconsider Our opinion of Market Value as determined herein.
94. That where sales data has been obtained from the RP Data/Land Registry Services and Valuer General's database, We have considered it to be the most current sales data available. However sales which have occurred during the course of the last three months or sales which have been the subject of deferred settlement terms may not necessarily appear immediately on the Land Registry Services records. Accordingly with this type of transaction, We rely on separate enquiries to attempt to obtain all available sales data.
95. That it is noted that We have relied on sales data information services as being a true and correct reflection of the terms of any sale considered at arm's length. We have not sighted copies of transfer notices, nor have We sighted copies of contract documents between the vendor and purchaser which may reveal matters that affect the sale price and necessitate adjustment to apply to the subject property. In the event that contract documents reveal matters that necessitate adjustment of the sales evidence We reserve the right to reconsider Our Valuation herein.
96. That in most instances it has not been possible for Us to inspect sale and lease evidence properties internally, however they have been externally inspected for purposes of carrying out Our Valuation.
97. That where there is a paucity of directly comparable sales and leasing evidence in a locality, it is necessary for Us to either consider other comparable localities and/or to consider sales and leasing evidence which is dated in the immediate area to gain an understanding of the historical sales and leasing value base for the area.
98. That in analysing the sales and/ or leasing evidence referred to herein, it is noted that We have attempted to ascertain whether or not the sale price or rental is inclusive or exclusive of the Goods and Services Tax (GST). Apropos the sales evidence, it is emphasised that the New South Wales Land Registry Services does not currently differentiate between or record whether or not the sale price is inclusive or exclusive of GST. Where We have not been able to verify whether or not GST is included in the sale price, We have assumed that the Land Titles Office record sale prices exclusive of GST. Should this not be the case for any particular sale used as evidence, We reserve the right to reconsider Our Valuation.
99. That in relation to the sales evidence, Contracts of Sale, Special Conditions within Contracts and Side Agreements has not been sighted. We reserve the right to reconsider the Valuation should these documents indicate any matters that materially affect Our Valuation.

1.03.22 Risk Assessment Matrix

100. That the Risk Analysis provided within Our report has been prepared based on information available to Us at the date of preparation of this report. Accordingly, We will not be held responsible, liable or negligent for any unforeseen future market downturns.

101. That the risk ratings in Our Valuation or Valuation Services Reports are provided as a guide to alert the reader of the report to issues which impact the value of the property. Each risk rating and feature should be considered in the context of the comments, terms and conditions contained within the report. We have, in some instances, estimated risk ratings based on matters identified at the time of inspection or upon review of documentation available. Should there be matters that impact upon the Valuation and risk rating assessment herein that We are not aware of, We reserve the right to reconsider the risk ratings and Valuation herein. Where the risk rating may be seen by You to contradict any comment or statement in Our report, to avoid any doubt, the comments and statements in Our report prevail.

1.03.23 Progress Claim

102. That in undertaking the progress inspection for the loan draw down purposes We emphasise that We have not supervised the work on a day to day basis. We have merely inspected the property on the date in the report. Furthermore, We have assumed that all work is carried out in accordance with the approved plans and specifications, the Local Government Act 1993 and the Building Code of Australia in a good and workmanlike manner.

1.03.24 Executive Summary

103. That Our executive summary in Our Valuation or Valuation Services Report must be read in context of and in conjunction with the full Valuation report of which this executive summary forms part. All comments, terms and conditions contained in the full Valuation report and Quotation relate directly to this Executive Summary.

1.03.25 Statutory Valuation

104. That We have relied on information supplied by Revenue NSW or the relevant Local Authority. If this information proves to be incorrect We reserve the right to reconsider Our Valuation herein.

1.03.26 Insurance Replacement Cost – Residential

105. That Our insurance Replacement Cost estimate has been prepared on the assumption that Our insurance Valuation includes:-

- (a) Demolition and removal of debris;
- (b) Physical replacement;
- (c) A contingency; and
- (d) Fees; only.

106. No allowance has been included for escalation during a town planning application period or rebuilding period or for loss of rental during any re-building period which, if included, by definition, is an opinion of Insurance Reinstatement Value.

107. That Our insurance replacement cost estimate has been prepared on the basis of current values with no allowance being made for escalation during the ensuing twelve month period. Further, We have not made allowance for escalation for any planning, application or extended re-building period. To deal with the problem of escalating costs during the ensuing 12 months and any extended re-building period; We suggest that You discuss an appropriate escalation clause with Your insurance broker. However it excludes any fit out or further fitting or equipment.

108. That Our insurance replacement cost estimate has been prepared on the assumption that the insurance assessment is prepared on the basis of replacement. Such assessment includes fixtures and fittings and such other items normally considered to form part of the building;

109. That Our insurance replacement cost estimate has been prepared on the assumption that the requirements of the National Construction Code (NCC) and The Building Code of Australia (BCA), Local Government Act 1993 are taken into account as is, in Our experience, appropriate.

110. That Our insurance replacement cost estimate has been prepared on the assumption that the improvements may be reconstructed without any undue delays for planning and development approvals/ consents. To deal with the problem of potential planning or development consent delays We suggest that You discuss an appropriate policy clause with Your insurance broker.

1.03.27 Insurance Reinstatement Cost – Non – Residential

111. That Our Insurance Reinstatement Cost estimate includes:-

- (a) Demolition and removal of debris;
- (b) Physical replacement cost (which We have considered on a rate per square metre basis from the Rawlinson's Australian Construction Cost Handbook);
- (c) A contingency;
- (d) Fees;
- (e) An estimated time allowance for planning and development application and approvals;
- (f) An estimated time allowance for a re-building period;
- (g) An estimated time allowance for a re-letting period beyond the re-building period (relative to an assessment of loss of rental time allowance where an investment property as opposed an owner occupied property); and
- (h) An allowance for annual growth in costs (inflation) relative to the above time periods which We have considered from the historic price indices in Rawlinson's Australian Construction Handbook and CPI Inflation forecasts where available.

112. Should Our estimates of time allowances for planning development approvals, re-building periods, re-letting periods or Our estimates of cost/ cost growth/inflation prove to be incorrect We reserve the right to reconsider same.

113. We have included the above items in Our assessment of Insurance Reinstatement Cost which We understand typically are included in the Industrial Special Risks (IRS) Mark 5 policy wording. You should check Your policy wording to confirm that these items are inclusions in Your insurance cover. In the event that they are not inclusions or that other items need to be added to or included You should contact Us to revise the estimate so that it aligns with Your ISR policy wording.

114. We also note that Our estimate of Insurance Reinstatement Cost excludes any allowances for site or building contamination clean-up costs. Where land is contaminated the clean-up of the land following an insurance event that leads to a redevelopment application may protract timing allowances for planning and development approvals, demolition and removal of debris and the overall reconstruction period it may also add to rebuilding costs. In the event that any unforeseen contamination clean-up leads to an additional time allowance for re-building as a result of contamination clean-up or any additional costs are to be included We reserve the right to reconsider Our Insurance Reinstatement Assessment herein.

115. That Our insurance Replacement and/or Reinstatement cost estimate is based on a building cost estimate prepared on a rate per square metre basis wherein We have relied on composite construction cost rates from the most recent edition of the Rawlinson's Construction Cost Guide. Our estimate is not based on elemental construction cost guides that would normally be prepared by a cost planner or quality surveyors.

1.03.28 Tenant Viability (Paying Rent and Meeting Lease Obligations)

116. That in preparing Our Valuation We have assumed that the tenant/all tenants business (es) will remain economically viable and that the tenant(s) will continue to meet their rental obligations under the lease. Should this not be the case, We reserve the right to reconsider Our Valuation herein. Where rent reviews have been overlooked, We have assumed that they may be implemented.

1.03.29 Specific Client Instructed Assumptions

117. That, as instructed by You, We have prepared Our Valuation based on the assumption that (INSERT ASSUMPTION). Should these circumstances not prevail We reserve the right to reconsider Our Valuation herein. At the date of preparation the likely value adjustment of the circumstances not prevailing would be approximately (INSERT ADJUSTMENT).

1.03.30 Time Base Assumption

118. That Our Valuation or Valuation Services have been prepared at a time when (ADD CIRCUMSTANCE/MAJOR ECONOMIC OR WORLD EVENT). Our Valuation assumes that both economic and real estate markets will remain relatively stable subject to usual economic and real estate circumstances. In the event that there is an impact of the above events or abnormal circumstances on the economy and real estate markets in general, We reserve the right to reconsider Our Valuation herein.
119. Notwithstanding these circumstances, Our Valuation assumes that both economic and real estate markets will remain relatively stable for the next 3 months subject to usual economic and real estate circumstances.
120. We have attempted to identify recent sales and /or leasing transactions to prepare Our Valuation. Where there is a paucity of recent sales and or leasing evidence We have, to the best of Our ability, adjusted sales and or leasing evidence being mindful of the current circumstances. In the event that there is further decline in the economy and or real estate markets in general, We reserve the right to reconsider Our Valuation herein.

1.03.31 Publication Report Disclaimer

121. The information provided within this publication should be regarded solely as a general guide. We believe that the information herein is accurate however no warranty of accuracy or reliability is given in relation to any information contained in this publication. Nor is any responsibility accepted for any loss or damage whatsoever arising in any way for any representation, act or omission, whether expressed or implied (including responsibility to any person or entity by reason of negligence) accepted by Preston Rowe Paterson Sydney Pty Ltd or any of its associated offices or any officer, agent or employee of Preston Rowe Paterson Sydney Pty Limited.

1.03.32 COVID-19 (Coronavirus Disease)

122. Our Valuation has been prepared at a time when the COVID-19 (Coronavirus disease) is having a profound and unprecedented impact on global economies, stock markets capital markets and real estate markets.

The World Health Organisation declared COVID-19 a pandemic on March 2020.

Because of the lag in real estate market transactions there has not yet been a significant body of sales or leasing transaction evidence that reflects the prospect of worsening economic and or real estate market conditions.

Early signs are that certain industries are being affected more so than others at this time.

Governments around the world, whom have all but exhausted the prospect on monetary policy stimulus given the already low interest rate environment, are rapidly developing fiscal stimulus strategies to avert a prolonged recessionary environment and unpin economic activity.

In preparing Our Valuation We have considered sales and leasing transaction evidence that occurred recently and possibly prior to the onset of the current circumstances. We have also, where possible, considered transactions that have occurred since the circumstances of the Coronavirus were known to real estate market participants (buyers and sellers, lessors and lessees).

We have also considered the supply and demand characteristics for the subject property asset class at the date of Valuation. To do this We have had extensive discussions with real estate agents and market participants to consider the rental and capital markets for the subject property in the current environment.

Where necessary We have attempted to reflect the circumstances as they may affect the subject property in Our Valuation herein. Should Our basis of assessment of the impact of the current circumstances for the subject property prove to be incorrect, We reserve the right to reconsider Our findings herein.

1.03.33 COVID -19 – Economy - Commonwealth Code on Commercial Leasing

123. On 7 April 2020 the Prime Minister, Scott Morrison, announced a Mandatory Code of Conduct (the Code) for commercial tenancies (including retail, commercial, and industrial tenancies).
124. The Code applies to SME's that:-
- (a) Have a turnover of less than \$50 million per annum; and
 - (b) Are eligible for the Commonwealth's JobKeeper support, because they have suffered a turnover loss of 30% or more as a result of the economic impact of the COVID-19 Pandemic.
125. The Commonwealth Code has been ratified differently in the various States of Australia (i.e. different State Legislation and Regulations to Legislation). We have relied on the NSW application of the Commonwealth Code in:-
- (a) The Retail Leases Act 1994;
 - (b) The Conveyancing Act 1919; and
 - (c) The Retail and Other Commercial Leases (COVID-19) Regulation 2020.
126. Landlords that are subject to the Code are likely to have rental income reduced. Estimating how long that reduction will last, depends on the length of restrictions imposed by the COVID-19 Pandemic (COVID-19 Pandemic Period and Reasonable Recovery Period) and how long it will take affected tenant businesses to recover back to normal trading conditions.

1.03.34 Specific Commercial Leasing Code Assumptions and Hold Harmless Provisions

127. Because of the Commonwealth Code and COVID-19, it is immediately necessary for Us to take the Code into account in relation to the work We are doing for You. Our Valuation will necessarily need to:-
- (a) Rely on instructions from owners as to whether or not they are impacted by the Code;
 - (b) Estimate the impact this will have on rental income; and
 - (c) Estimate how long the COVID-19 pandemic is going to impact rental income.
128. Our Valuation report will set out the information on which We rely, as well as the estimates We are making. Please note that these assumptions may well need to be revised, depending on the prevailing circumstances, which can change rapidly.
129. By providing Us with instructions, or continuing to instruct Us, You acknowledge and agree that, We cannot be held liable for any loss that is in any way related to the assumptions and estimates We are required to make, given the application of the Code on commercial property. Apropos any COVID-19 Pandemic Period and Reasonable Recovery Period adjustments We make to Our Valuation You specifically agree to hold Us harmless and relieve Us of any and all liability in relation to the Valuation Services provided by Us.
